use
feel free to adjust padding, font, font-size, color, etc...

font-awesome icon
fa-cubes
you can treat these icons as if they were text
They will scale with font-size

<div>
rounded borders reccomended
padding (find something that looks good)
gray6 (eeeeee)

overflow-y:auto; will make them scroll

at this point, this main section is full of content. i'm too lazy to put stuff in here

icons are from font-awesome
border: black:
background: #333333

You will probably want a div for the .icon-container and a span for the .icon-label
:)
